

Micro-Teaching Peer Feedback Form

Teacher's Name: Benessalah Mouna

Date: 26/04/2026

Observer's Name: Aherach Zakaria

Rating Scale

5 = Strongly Agree | 4 = Agree | 3 = Neutral | 2 = Disagree | 1 = Strongly Disagree

Section 1: Quantitative Evaluation

Category	Criteria	Rating (1-5)
Delivery	Spoke clearly and at an appropriate volume/pace.	4
	Used appropriate eye contact, gestures, and facial expressions.	4
Planning	Established clear learning goals and appropriate content amount.	3
	Selected and prepared effective class materials.	3
Classroom Management	Managed time well and created student motivation.	2
	Used clear instructions and helpful handouts/media.	5
	Used praise and encouragement.	2
Interaction	Encouraged learners to ask questions and used a variety of activities.	4
	Checked for understanding before proceeding.	2
	Communicated enthusiastically.	3

Section 2: Qualitative Observations

- **What went well during the lesson?**

The teacher maintained good eye contact and spoke clearly throughout the lesson, which helped keep learners engaged. The instructions were easy to follow, and the use of handouts/media supported understanding.

- **What could be improved?**

Time management could be improved to allow smoother transitions between activities and more opportunities for checking students' understanding. Increasing the use of praise and encouragement would also help build student confidence and motivation during the lesson.

- **How effectively were the lesson objectives met?**

The lesson objectives were partially met. Students appeared engaged and able to follow the content, but additional comprehension checks and better pacing would help ensure that all learners fully achieve the intended outcomes.

Section 3: Summary Comments

The lesson demonstrated good communication skills and effective use of instructional materials. The teacher created a positive learning environment and encouraged student participation through varied activities. For future improvement, focusing on time management and checking learners' understanding more consistently would strengthen lesson effectiveness. Overall, the session showed clear potential and steady progress in teaching practice.
